A dedicated, emotionally intelligent undergraduate focused on problem-solving with an analytical mind and a strong work ethic, studying **Computer Science & Engineering** at the **Delft University of Technology** in The Netherlands.

I am deeply committed to my personal and professional development as demonstrated by the substantial work experiences and extracurricular activities I have undertaken. Having co-founded a successful business at the age of 17 and because of my love for technology, I developed an ever-growing hunger for dealing with new and challenging situations, thus my strong interest in the financial markets along with computer software. **Core Competencies:**

- | | | |
|--|--|--|
| <input type="checkbox"/> Great attention to detail | <input type="checkbox"/> Leadership | <input type="checkbox"/> Personal Integrity |
| <input type="checkbox"/> Eagerness for constant improvement | <input type="checkbox"/> Strong technical skills | <input type="checkbox"/> Resilience under pressure |
| <input type="checkbox"/> Fast decision-making skills | <input type="checkbox"/> Team player | <input type="checkbox"/> Multilingual |
| <input type="checkbox"/> A pro-active problem-solving nature | <input type="checkbox"/> Competitive attitude | <input type="checkbox"/> Entrepreneurship |
